An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Smith on 8/13/04.

In claim 17 line 5 after "strip;" --a meter;-- has been added, in line 7 "it can be engaged with electrical contacts of a" has been changed to --the test strip is engaged with electrical contacts of the --.

In claim 26 line 4 after "strip;" --a meter;-- has been added, in line 7 "it can be engaged with electrical contacts of a" has been changed to --the test strip is engaged with electrical contacts of the --.

The following is an examiner's statement of reasons for allowance: In addition to the remarks of record, the Office agrees the cited prior art fails to teach or anticipate a test device for dispensing test strips having a transport member rotatably mounted in the opening of the housing wherein the transport member has a recessed region to receive and transport a single test strip to a test meter.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bottwein et al. teaches a device for storage of test elements. This reference does not teach providing the test elements to a meter as presently claimed .
